Hey Jeff,
Flagging an amendment over in the Senate from Senator Duckworth on 846, have you all seen that one?

Hi Laura,

We're long overdue in coming in to see your team to provide an update on Amazon Business and some follow on information to our RFI response. If your schedule could support it, I'd appreciate the opportunity to bring in a team and do a more fulsome demonstration of our solution (we have some new improvements), as well as talk through some of the issues that we see with the current legislation. Could you find two or three hours so we could really go deep? I was thinking of the week or Nov. 25th or Dec. 3rd to give both of us time to schedule the necessary participants.

Please let me know your thoughts and some dates and times that would work. It might also be a good idea to have a quick pre-meeting call to align on the meeting topics and demo contents?

Thanks, (b) (6), (b) (4).

Laura, Bill, Keith, Michael and John,

Thank you for your time this morning to share an update from AWS, help us understand your goals and challenges, and provide feedback from a CSP perspective. I wanted to recap the follow up items we discussed to confirm our takeaways:

1) AWS Secret facility clearance holdup update - The Information Security representative from DSS has completed his initial assessment and no there are no additional actions for AWS. The package is now under review by DSS HQ. This is all the information we are able to provide at this point.
2) Centralized acquisition discussion follow up – Keith: if you would like to have a follow up discussion, please let us know if there is a good timeframe for you.
3) Cloud Information Center –follow up discussion on roadmap, T&C's, SLA's, etc. – John: please let us know when would be a good time to schedule a discussion.

Were there other topics to follow up on?

Thanks again for your time and partnership.

Got it thanks. Is the idea that the RFI responses will be submitted in advance of the meeting, and then used as fodder for the second part of the panel discussion, or simply that interested parties on those topics can participate and submit written responses later on?

The latter. We had never intended for the RFIs to be closed by the industry day.

Thanks,
Laura

Hi Laura,

Thanks for chatting last week. I wanted to get back in touch and see if you and the team would be interested in getting together again for some additional discussion on 846 and Amazon Business, perhaps on Wendesday 4/18 this month? (b) (6), (b) (4) and Rob will be back in DC, so hopefully the timing works. Let me know what you think. Thanks,

Hi Laura, here's a link to our selling on Amazon – you'll see a link to our fee structure.

SellOnAmazonBusiness

As an aside, we've been digging into the Naval Postgraduate pricing comparison and the methodology is a bit misleading. When we compare the pricing of their 60 products – low price to low price (versus their approach of using average lowest price) and without brand specificity, the results on pricing flip, and AB is lower the majority of time. That's also not accounting for minimum order requirements on GSA Advantage. Would be curious to see GSA's price comparison that you referenced. Let me know if you're willing to share.

Thanks, and let me know if you need anything else at this time. (b) (6), (b) (4)
